Quest Serviced Apartments has announced the winners of its 2010 Quest Franchise of the Year Awards at a gala dinner on Saturday 13 November.

Quest Serviced Apartments celebrated a successful 2010 by announcing Quest Invercargill as the New Zealand Franchisee of the year.

The annual awards recognise outstanding achievements and commitment to the Quest brand, serviced apartment industry and most importantly guest service. Finalists and winners are chosen from more than 125 properties across Australia, New Zealand and Fiji.

Paul Constantinou, Chairman Quest Serviced Apartments said Quest had enjoyed a successful year thanks to a strong business model and the unwavering commitment of Quest's franchisees and employees.

"Without the commitment and drive of our network of franchisees and their employees, we would not be the industry leader we are today," he said.

"From property management to housekeeping, all of our employees play a vital role in delivering exceptional guest service day in and day out.

"The annual Quest awards formally recognise the best of the best in business leadership across the Quest network and also the future leaders of the Quest Group.

"Our award winners and extended network should be very proud of their achievements this year," said Mr Constantinou
