Quest follows business customers out west

Due to open in November 2010, Quest Henderson will be the first of a number of new properties in 'satellite' business districts and major city suburbs to be opened in the next 24 months. Other new locations include North Shore City, Manukau City and Petone.

As New Zealand CEO Stephen Mansfield explains, Quest's growth and expansion follows that of their business customers.

"We have secured our presence in central business districts and regional hubs, now we are growing into those major suburbs that have become satellite business districts, to support the travel patterns of our corporate and government clients".

Quest Henderson will offer a range of 4-star studio, one-, and interconnecting two-bedroom self-contained apartments. Its amenities will include onsite car parking, daily room servicing, restaurant charge back facilities, a pantry shopping service, and Qantas Frequent Flyer benefits.

Located at 12 Wadier Place, Quest Henderson will be in close proximity to local business and leisure precincts while still less than 20 minutes drive from Auckland CBD.

Quest Henderson will be providing special soft opening rates on request. For further information on rates please email host@questhenderson.co.nz
